Comments for any notable improvements or deterioration in performance, or compliance with tenant and resident safety requirements regarding the figures supplied in the "Housing quality and maintenance" section, including non-compliance with electrical, gas and fire safety requirements and plans to address these issues.

We have 31 SHQS failures reported in IND 6. We had planned to improve 5 of these during 2023/24 however our funding for the project was withdrawn due to the time taken to try and get the project on site so our progress stalled. Of the remaining 28 properties there are varying issues affecting these but the majority require some form of insulation in the first instance. None of the failures are due to non-compliance with electrical, gas or fire safety.

Indicator 14 - The number of refusals during 23-24 have reduced significantly in comparison to 22-23 as discussions were held at Customer Services Committee with regards to measures that could be put in place to help reduce refusals. The different measures put were -more information to applicants prior to viewings i.e. photographs of the property, internal ones if we have them and measurements of rooms. We were also issuing offer letters after a phone call, instead we now wait until we meet the applicant, give them the additional information and make sure they want to go ahead with the viewing. This has made a difference.
